Acknowledgement. Below is the updated statement of the “Acknowledgement.”

**Funding**
This work was funded by a Grant-in-Aid for Scientific Research (Basic Research (A), 26,257,507) from the Ministry of Education, Culture, Sports, Science and Technology, Japan, spanning the years 2014–2016, and the International Community Health Research Fund of The University of Tokyo. It was also funded for unwavering support by the core donors of The International Centre for Diarrhoeal Disease Research, Bangladesh (icddr,b) - The governments of Bangladesh, Canada, Sweden, and the UK.

**Acknowledgements**
The authors gratefully acknowledge all participating children who generously provided their invaluable blood and stool samples and their guardians who accompanied them. The authors gratefully acknowledge Prof. Shinji Nakahara also for statistical analysis. Moreover, the authors sincerely thank the field research staff and Dr. Ipsita Hamid Trisha for the rigorous data collection. The authors also acknowledge the valuable contributions of Dr. Junkichi Takahashi, Dr. Md Yunus, Dr. Hafizur Rahman Chowdhury, Dr. Shams EL Arifeen, Dr. Abdullah Baqui, and Susumu Wakai, who actively participated in creating the dataset referenced in this study (Reference 27), enabling its successful completion. Finally, the authors would like to express their appreciation to Prof. David Sack and Prof. Kanehisa Morimoto, Dr. Tariq Anwar, Dr. J. Chakraborty, Dr. Mahbubur Rahman, Dr. Yukiko Wagatsuma, for their kind assistance in supporting the creation of the dataset used in this study.

We apologize for the error.
